Ambient Circus Performers

Ambient performers are “background” entertainment which can be the perfect addition to your cocktail hour or event where the spotlight isn’t necessarily wholly on the performer. From roaming stilt walkers and jugglers, to stationary aerialists and contortionists, ambient performance is the most popular entertainment for events.

Variety Acts

Draw the attention of your audience with variety acts! This is where a performer takes center stage and performs a set routine (usually 4-5 minutes each). If there is a theme to your event, we can choreograph around it with at least 2 months notice. From aerials to ground acts, we can dazzle your guests with our talented performers.

It’s no secret that part of the draw of aerial entertainment is the danger element in watching gravity-defying feats. Our goal is to provide quality entertainment that is enjoyable and safe for performers and spectators alike! We may require a minimum number of performers to ensure safety and top quality performance, depending on your event needs.

Additional Fees

Venue Site Visit
